

Your firm. Your business. Your vision.

For the pilot, this questionnaire replaces the on-site baseline assessment and gives us a starting point for our collaboration.

Brief notes are enough. Leave anything unclear open. I will follow up with you and use your answers to prepare your personal starting profile.

Please do not include client, employee or health data, credentials or case documents. Use roles rather than other people's names.

01 Your organization and people

Firm / organization name

Your name

Your role

Email for our collaboration

Website (optional)

Organization type

Team size

Location(s) / on-site or distributed working

What does your business stand for? Who do you support?

Services, customers and what makes your organization distinctive.

What already works well and should be preserved?

Your vision and first priority

What would you like to change? One clear priority helps us take the first practical step.

02 Your vision and first priority

What would you like to make possible over the next 12 months?

Your vision, even if you are still finding the words for it.

How would you recognize that we have made a difference?

Observable change; label existing figures as measured or estimated.

What currently holds you or your team back most?

Which one topic should we tackle first during the pilot?

Is there an important date or occasion? (optional)

This PDF uses the same profile fields as the planned online onboarding.

Daily work, people and technology

We build on what is already in place and make everyday friction visible.

03 Daily work, people and technology

How does this work today?

Trigger, main steps, roles involved and outcome. One example is enough.

Where do questions, delays or duplicate work arise?

Which systems, automations and AI tools do you already use?

Names and purpose are enough. Do not include credentials or documents.

What does your team need to take the next steps with you?

For example, clarity, time, onboarding or shared decisions.

Which constraints or existing projects should we take into account?

Time, capacity, requirements and existing partners; broad details are enough.

How we work together

I actively stay up to date and arrange follow-up within our agreed scope.

04 How we work together

Where would support help? Select as many as apply.

- ☐ Processes, automation and AI
- ☐ People, leadership and collaboration
- ☐ Vision, ideas and decisions
- ☐ Practical implementation and coordination
- ☐ Facilitation, presentations or agreed representation

How can collaboration fit into your working day?

Please select

How can I stay up to date with minimal effort for you?

Relevant roles, existing summaries or brief check-ins; this does not grant access.

What would make you want to continue after the pilot?

What else should I know or clarify with you?

Completed on (DD.MM.YYYY)

These answers are your account of the starting point for the pilot, not an order or access permission. After my review, they form our shared working baseline.

Complete the PDF and save it; do not use Print to PDF. Return it using the channel agreed with Robin.
